Storage/Lifetime

Store eyewear in a dry area at room temperature and sheltered from sunlight. Eyewear should be transported and kept in the original packing.

Under normal circumstances; eyewear should provide adequate protection for up to 6 months. Scratched lenses should be replaced or disposed.

Cleaning

Lenses are to be cleaned regularly. Never clean when dry; always use water at room temperature (20°C ± 5°C) with mild detergent. Disinfectant in line with manufacturers instruction can be added to the cleaning solution to disinfect lenses.
