

Centurion's latest safety helmet innovation

One Helmet for Summer & Winter

Unique Venturi system provides ventilation as standard. VentPlug available to close off the ventilation when not required.

Optimum Wearer Comfort

6 Point Terylene cradle

Brushed Nylon sweatband

Flexible and easy to adjust headband

Deep nape strap for maximum stability

Terylene cradle, Brushed Nylon sweatband, Centurion's well renowned headband and a well balanced helmet provide maximum comfort, even during prolonged usage.

REFLEX

High-Visibility Flash

A high visibility Yellow or Orange Flash at the sides and rear is available as an option to provide improved visibility in poor light conditions when the wearer may be vulnerable.

Successfully combines practicality with safety and wearer comfort

Clip-On Reflectors

Reflectors are available so that the wearer is more visible from the sides as well as the rear when a light (e.g. from a car headlight) shines on them, improving both the wearer's safety and peace of mind when working at night or in conditions of poor visibility.

Added Nape Protection

The extended nape area provides maximum protection at the rear for the neck and lower head area.

Centurion's New Patented COMBI slot

One new slot accepts two accessory clip types:

- Centurion's COMBI clips
- 30mm Euro clips*

*must be Centurion or other CE approved system

Only one Peak length necessary...

... A Mid Peak!

Short enough for improved visibility and Long enough for sun-glare protection

Wide front Badging area

Add your company logo or image on your Reflex helmet to further improve your company's visual profile
